

MARYLAND MEDICAID PHARMACY PROGRAM

No. 145
June 17, 2014

ADVISORY

In an effort to give timely notice to the pharmacy community concerning important pharmacy topics, the Department of Health and Mental Hygiene's (DHMH) **Maryland Medicaid Pharmacy Program** (MMPP) has developed the **Maryland Medicaid Pharmacy Program Advisory**. To expedite information timely to the pharmacy and prescriber communities, an email network has been established which incorporates the email lists of the Maryland Pharmacists Association, EPIC, CARE, Long Term Care Consultants, headquarters of all chain drugstores and prescriber associations and organizations. It is our hope that the information is disseminated to all interested parties. If you have not received this email through any of the previously noted parties or via DHMH, please contact the MMPP representative at 410-767-1455.

Maryland's Preferred Drug List—July 1, 2014

Generic vs. Brand Status on Maryland's Preferred Drug List

Medicaid's Preferred Drug List, encompassing about 1700 drugs, covers most of the generic versions of preferred multisource brand drugs without any type of prior authorization. If the prescription for a brand name drug is to be dispensed as written, the prescriber must complete and submit a Medwatch form (<http://mmcp.dhmh.maryland.gov/pap/docs/Maryland%20Medwatch%20Form.pdf>). The State's clinical pharmacy team will review the Medwatch form and notify the prescriber whether the request for the brand name drug was approved or denied. The State will forward the Medwatch form to the FDA.

The Maryland Medicaid Pharmacy Program (MMPP) wants to alert you to changes in the exceptions to this rule that are included in the attached updated Preferred Drug List (PDL) that is **effective July 1, 2014**. **Brand name Sandimmune®, Marinol®, Lovenox® and Metrogel® are no longer preferred** over their generic equivalents. Please refer to our website for a complete list of the PDL at the following link:
<https://mmcp.dhmh.maryland.gov/pap/SitePages/Preferred%20Drug%20List.aspx>. This PDL also contains three (3) new classes of drugs not previously reviewed: Opiate Dependence Treatments, Hypoglycemics-SGLT2 Inhibitors and Irritable Bowel Syndrome.

Not All Generics are Preferred

In order for the State to enhance the benefit of the PDL, in some instances the multisource brand name drug is Preferred over its generic equivalent, because the branded drug is less costly than its generic counterpart. This happens most often in cases of newly released generics. When manufacturer rebates are taken into consideration, the brand name drug has a lower net cost to the State. When the brand name drug is Preferred, neither a Medwatch form nor authorization is

needed¹. Enter a **DAW code of 6** on the claim to have it correctly priced. If any problems are encountered during the on-line claim adjudication of Preferred Brands, contact Xerox 24-hour Help Desk at 800-932-3918 for additional system overrides related to the use of the correct DAW code (for example, when there is other insurance that is primary). Please retain this Advisory as a reference in addition to any updates that follow. This information is also available at <http://www.epocrates.com/> on your desktop computer or PDA/Smartphone. Epocrates is updated weekly. **The Brand Preferred exceptions are as follows:**

Preferred Brands

Adderall XR
Alphagan P 0.15%
Astelin
Carbatrol ER
Cardizem LA
Catapres TTS
Cymbalta
Depakote Sprinkles
Dexedrine ER
Diastat
Differin cream
Focalin
Focalin XR
Gabitril
Kadian
Lidoderm
Metadate CD
Methylin Oral Solution
Parnate
Pulmicort respules 0.25mg and 0.5mg
Ritalin LA
Tegretol suspension
Tobi Inhalation Solution
Tobradex drops
Toprol XL
Tricor
Trileptal suspension
Vancocin

Non-Preferred Generics

amphetamine salt combo ER
brimonidine 0.15%
azelastine nasal
carbamazepine ER
diltiazem ER tablets
clonidine patches
duloxetine
divalproex sprinkles
dextroamphetamine ER
diazepam rectal
adapalene cream
dexmethylphenidate
dexmethylphenidate XR
tiagabine
morphine sulfate ER
lidocaine patch
methylphenidate CD capsules
methylphenidate oral solution
tranylcypromine
budesonide respules
methylphenidate ER capsules
carbamazepine suspension
tobramycin inhalation solution
tobramycin/dexamethasone drops
metoprolol succinate XL
fenofibrate nanocrystals
oxcarbazepine suspension
vancomycin capsules

In the following instance, **both** the multisource brand and the generic are preferred:

Preferred Brand

Optipranolol

Preferred generic

metipranolol

¹ Unless the Program has established clinical criteria for the drug

MARYLAND PREFERRED DRUG LIST

Effective Date 7/1/14

Only drugs that are part of the listed therapeutic categories are affected by the PDL. Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid patients.

Note: Brand names listed in parentheses are only listed as a reference. For most multi-source products, the generic product(s) are usually preferred and branded innovator product(s) are non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as “**(generic only)**”. PDL products that are new to market require prior authorization until they are reviewed.

Changes in the Preferred Drug List are highlighted in yellow.

ANALGESICS

Drug Class	Preferred	Requires Prior Authorization
Analgesics, Narcotics (Long Acting)	fentanyl patch (Duragesic) methadone (Dolophine) morphine sulfate SR (MS Contin) Kadian (Brand only)	hydromorphone ER (Exalgo) <i>morphine sulfate ER (Kadian) (generic only)</i> <i>morphine sulfate ER (Avinza)</i> <i>oxymorphone ER (Opana ER)</i> <i>tramadol ER (Ultram ER, Ryzolt)</i> <i>Butrans</i> <i>Conzip</i> <i>Nucynta ER</i> <i>Oxycontin</i> Zohydro ER
Analgesics, Narcotics (Short Acting) <i>*Clinical Criteria applies to oral fentanyl buccal tablets (Fentora), fentanyl buccal lozenges (Actiq, generic), Abstral (fentanyl sublingual tablets), Onsolis (fentanyl buccal film) and Subsys (fentanyl sublingual spray).
